BC Bid May Swing Rail to Grimshaw

Lac la Biche Fish & Game Association Needs Everyone's Help, Says Official

"We need the help of the townspeople as well as the farmers," states D. Gourlay, secretary of the Lac la Biche Fish and Game association, "since a few can spoil what a lot have worked hard to do.

"We're a newly formed group," Mr. Gourlay continued, "and our job is to safeguard the forests in the interests of the fish and game resources, and to promote game and fish refuges so that we can enjoy the natural resources and for future generations.

"There is so much to do here that a lot of help is needed by everyone in our district.

"We are at present trying to have pheasants put in our district again. The last time it was a failure because of no supervision and little interest. Apparently pheasants will not stay where there is no limestone content in the soil. The Lac la Biche area will have to be tested by biologists of the Association to find out if we can have them on a self-propogation program or if they will have to be raised by individuals and released before the hunting season."

Mr. Gourlay said the Alberta Fish and Game Association is at present after the government of Alberta to build a road north and east of Lac la Biche to open up our forested and recreational area.

The next meeting of the Lac la Biche group is scheduled for June 10 in the town hall.

"We want people to get to know and understand what we are attempting to do," concluded Mr. Gourlay, "then we know we'll have their support."

Mr. Gourlay said he hoped news reports of the meetings of the Lac la Biche Fish and Game Association would be published in the Lac a Biche Herald to help keep the public informed of the Association's purpose and progress.

Some Local News Missing This Week

Due to the provincial election campaign printers at the Sun office in Edmonton are very busy. Consequently they have not been able to set all the news they would have liked to put in the paper this week.

As soon as the bulk of election printing has been done, however, the news missed this week will be set and published in the paper.

Local editors and reporters are asked to continue sending their news on schedule.

Could Be Deciding Factor When 3-Man Commission Starts Study

By Ken Larson

A deciding factor in choosing Grimshaw as the starting point for a rail route to the south shore of Great Slave Lake appears to be contained in the proposal of the British Columbia government in having any rail line connecting with the PGE.

Although a three-man commission appointed last week by Prime Minister Diefenbaker will have to consider all the merits of alternative routes, the bid by BC could be the weight needed to swing any decision away from Waterways.

It is doubtful then if the Edmonton Chamber of Commerce could then arouse sufficient support for a 300-mile line from Waterways to Pine Point, NWT, where large discoveries of base metals have been made.

It is felt BC's proposal, which will be presented in a brief to the royal commission, according to the province's trade minister, Hon. Robert Bonner, would take the matter out of the hands of the Social Credit government since all rail lines to the NWT must serve all Canada and not just Alberta.

Last week the federal government named Edmonton lawyer Marshall E. Manning, a past president of the Progressive Conservative Association of Alberta, to head up the commission. He will be assisted by W. D. Gainer, an agricultural economist at the University of Alberta, and John Anderson-Thompson of Yellowknife, NWT.

The order-in-council under which the commission was established instructs the members to:

"Inquire into and report upon the respective merits of the alternative routes which might be followed by a railway line to be built from northern Alberta into the southern portion of the district of Mackenzie, Northwest Territories, for the purpose of providing access to and contributing to the development of that portion of the Territories tributary to Great Slave Lake."

Mr. Diefenbaker recalled that the Speech from the Throne read at the opening of the last session of Parliament May 12, 1958, said that to promote national development of the northern frontier Parliament "will be asked to authorize the construction of a railway to Great Slave Lake."

Since that time, he said, the fullest consideration has been given the project. Proponents of the major and eight other alternative routes have advanced their arguments for the route they particularly favoured.

The new commission chairman, Mr. Manning, is a barrister and solicitor and a Queen's Counsel. Mr. Gainer is associate professor of political economy whose specialty is agricultural economics. Mr. Anderson-Thompson is a consulting engineer.

Bayview People Hear Candidates

The speakers were the following candidates: E. J. Woynarowich, Social Credit; Mr. Thompson, Progressive Conservative; M. Maccagno, Liberal.

Rich Lake

The forestry division show held at the Rich Lake School on Monday, May 25, was well attended. The show was both educational and enjoyable.

A few friends and relatives gathered at the Toni Waine home on the occasion of Mrs. Waine's birthday.

The next meeting of the United Church Ladies Aid will be postponed until June 13.

Fire completely destroyed the four room school at Rich Lake during the night of May 27. When the fire was discovered the interior was so smoke-filled, entry was impossible.

The principal's teacherage which was close to the burning school, was saved by keeping it wet.

The Lac la Biche School Division were making plans to build a new larger school across the road from the old site next year. These plans will have to be hastened.

The regular school buses took the students to Lac la Biche for the annual track meet. Several students won ribbons and Joyce Huser, a grade five student, won an individual crest.

Congratulations go to Eileen Waine, a member of the grade 12 graduating class of Dr. Swift School, Lac la Biche, this year.

Eileen took grades 1 to 11 inclusive at Rich Lake School. Since grade 12 is not taught here, she attended Lac la Biche School.

New depth and draft control keeps 3-point hitch implements at pre-set level of depth. When going is slow—conditions are tough—the weight of the implement and draft is automatically transferred to the rear wheels. This matches traction to soil conditions, means more pull when you need it—faster operation without excess built-in weight—more work with less fuel.

The Lac la Biche Dodgers, senior baseball team, won first money at the Lac la Biche Mission Sports Day May 31.

In the semi-finals Lac la Biche trimmed Grasland 22 to 6. J. Olstad posted the victory by allowing only three hits while striking out 13 opposing batters. His teammates pounded out 14 hits, several for extra bases. In the other semi-final game Kikino eeked out a narrow 12-11 victory over Plamondon.

The final game was a pitching duel between Al Southwick of the Dodgers and Cardinal of Kikino. Letter To The Editor

Dear Sir:

Through the medium of your columns I should like to say thank you to the many people of Lac la Biche and district for the kind reception given to Mrs. Greene and myself on the occasion of our recent departure.

The many wonderful words and generous gifts were quite unexpected and therefore all the more appreciated. We shall always retain a soft spot in our hearts for Lac la Biche.

We are now very happily settled in Fairview which has many nice things, but alas there is no lake! I think that we will have to travel a long way before we find a view as beautiful as the one which we enjoyed from our rectory in Lac la Biche.

As we stated at the reception, a warm welcome awaits anyone from Lac la Biche who happens to be in the Fairview area.

On behalf of my wife and myself thank you all once again. It is really appreciated.

Attacked By Bull, Man Saved By Dog

HYLO—A near-tragedy occurred on the farm of Mr. and Mrs. S. Gushinsky, some four miles west of Hylo, on Thursday, June 4.

After getting his usually docile bull in the barn Mr. Gushinsky went to tie him up in the stall but the hornless Hereford had other ideas and knocked Mr. Gushinsky in the manger. Panic-stricken, helpless and unable to get up, for he fell in such a manner that left his feet over the manger, Mr. Gushinsky shouted to his wife, who was in another barn, for help and kept flailing at the bull's nose with his feet. The enraged bull kept snorting, pawing and striking at the hapless man's feet.

Hearing a terrifying commotion in the barn, assistance came almost immediately in the form of a small, intelligent cattle dog who furiously nipped at the bull till the latter rushed out of the barn. Mrs. Gushinsky came out in time to see the bull dash out and paw and snort at the dog.

Mr. Gushinsky, luckily, was not hurt much, only badly shaken up, but it might have been a different story if it was not for the aid of the brave little dog.

The bull will be shipped to market shortly.

COUNTY OF ATHABASCA

District Engineer Outlines County Road Building Program For 1959

MEANOOK — The regular meeting of the county of Athabasca was held May 21 and 22. Most of the morning of the first day of the meeting and until after 2:30 in the afternoon was taken up with Don Ritchie, district engineer, working on the road appropriations under the contingency fund for the county.

Mr. Ritchie announced, just prior to his leaving, that the following program would be in effect:

1. Boyle to Caslan. Would be finished this year, grading and gravelling.
2. Paxson to the Colinton-Boyle road. He advised that work be done from the east end in order to use the machinery more economically as the outfit would be in that place while working on the Colinton-Boyle road.
3. Meanook west to Fawcett. Discussion took place as to which end of the road should be built first, and it was decided that work would commence on the Meanook end of the road and proceed west.
4. Newbrook to Rochester, This road will be continued.

The County will handle the work on the road to Calling Lake under the Natural Resources grant.

Motion was made that Chairman sign agreement with the Department of Highways for allocation of Road Grants for 1959 throughout the County. Mr. Ritchie left at 2:50 p.m.

The Committee reported on the Bartoshewsky road. They felt the water damage was caused by natural drainage and also expressed the opinion he already had a good road. They recommended that a new culvert be placed to handle the water flow.

Jack DeDenus of Construction Equipment approached the Council regarding the purchase of a used pull grader. This had been recommended by the Municipal Committee and the council confirmed it.

Present at the session was Deputy Minister A. W. Morrison, who played the role of an observer and was in a position to answer questions asked by various members of the Council.

The office was notified at noon that the Judge had declared the election in Electoral Division 9 void and had ordered a new election. It became necessary for the Council to appoint a committee to conduct the affairs of the electoral division and a resolution was passed delegating a Councillor to look after road work and other matters in electoral division 9 until a new councillor is elected. It was felt Councillor Loxam, Chairman of the Municipal Committee, was best able to handle this responsibility.

A discussion regarding the negotiations with the teacher ensued. It was felt by the majority of the Council it would be nice to keep the County Council informed of the progress, but unless a by-law was passed taking away some of the powers of the School Committee, that committee had full power in negotiation with the teachers.

A further discussion revealed the same held true of the Municipal Committee. It was felt that it was not necessary to read the minutes of the two committees at the regular County Council meeting, but that all members of the County Council should receive copies of the minutes so they could ask any questions they desired.

Deputy Minister Morrison left about 4:30 p.m.

Mr. Bartoshawsky interviewed the council and the report of the Committee was given to him. A thorough discussion of drainage problems ensued.

The financial report was read.

A report on the site of the Old Folks Home was made by the member of the Foundation Board. He reported that, in company with members of the clergy, doctors, Mother Superior, he had looked at the site offered by the Council of the Town of Athabasca for the Old Folks Home. All reported that in their opinion the site is good, and they considered it preferable to the site which the County Council had considered they should have. Therefore, advised the member, there was a strong possibility the County Council could be wrong and they would therefore go along with the town council and share the cost and put the home on the site recommended.

Chairman Aloisio immediately got in touch with Mr. Hunt, Chief Engineer for the Department of Public Welfare and requested engineers be sent as soon as possible to give the levels and Mr. Hunt promised an engineer would be available on Monday.

The prevalence of fires in the County had more or less forced all road work to a standstill as all available machines were fighting fires. It was felt that all permits for lighting fires be cancelled, and that no more be issued until sufficient rain had come to make the danger of fire less acute. There were nine fires in the County reported burning May 21. May 22, there were several more smokes, not yet reported.

The Municipal Committee read a list of machines for the four units they were putting on the roads. All of which was in abeyance until the fires were out and the machines returned to their proper locations.

Government rates were discussed for payment for use of machines.

Three expropriations were put through.

It was decided to ask for tenders for County owned buses. A reserve price was to be placed on each and highest or any tender not necessarily accepted. Terms may be arranged when so desired.

Due to the presence of the two secretaries at the Short Course in Banff for Secretaries, the School Committee meeting was set for June 2. Due to the Provincial election, and the awkwardness of voting, the regular County Council meeting was set over until June 25.

Syd Ward was appointed Returning Officer for the election in Electoral Division 9, and he named Deputies and polling places. Nomination day was set for June 4, and election day for July 2.

Notification was received that the County is no longer responsible for bed ridden patients or partially bed ridden patients, but is responsible for up patients with 80% credit from the Department.

Seven parcels of land were sold or leased.

Sandy Karpetz was granted permission to build a general store at Charron.

The County Council concurred in the action taken by the Municipal Committee in co-operating with the directors of REA where the council will clear and brush the right of way on condition the fence will be moved and replaced by the REA or the farmer concerned.

The garnet was so called from its resemblance in color and form to the seeds or grains of a pomegranate.

SOME 1,090 ALBERTA prisoners serving in Alberta's prison and jails will have special reason to welcome next month's visit by the Queen and Prince Philip. They'll be among 20,000 in Canada whose sentence will be reduced, according to Justice Minister Fulton, at the rate of 30 days for each year left to serve. In Alberta, prisoners serving sentences longer than three months will be eligible. Mr. Fulton noted that similar amnesties were granted in 1935 on the silver jubilee of King George V, in 1939 when King George VI visited Canada, in 1953 at the coronation of Queen Elizabeth II and in 1957—the year the Queen opened Canada's Parliament, the first reigning monarch ever to do so.

Here's What a Liberal Government Will Do For You...

1. Provide immediate tax relief for property owners by paying a bigger share of the local cost of education. (A Liberal government would assume all "approved level" education costs above a certain uniform mill rate based on equalized assessment) Twenty mills is the proposed rate beyond which the government would pick up the costs.
2. Make modern utilities such as power, telephones and gas available at reasonable cost to the greatest possible number of rural residents, and provide agricultural loans up to $25,000 at reasonable terms covering the whole field of farm operations and relieving municipalities of liability and administration.
3. Set up a permanent, independent and non-political highway commission to plan long-term road and highway programs, at the same time assuring completion of a second North-South highway and instituting a practical and urgently needed highway safety program, using a point system to identify and control accident-prone drivers.

Political Candidates In Alberta Have Had Varied Careers

There are 216 candidates entered in the June 18th provincial election; men and women drawn from all walks of life and with many varied careers. This is particularly true of the Progressive-Conservative party making its first serious effort in an Alberta election in history.

ATHABASCA

Robert Shopland, the Conservative candidate for the northern riding of Athabasca, was an unsuccessful Tory standard bearer in the 1945 federal election. Shopland served in the RCAF during the second world war in the famous Path Finder squadron. He received the DFM. He farmed and raised sheep for years in the Athabasca district and is now the manager of the Canadian Co-operative of wool growers. He received a BSc in agriculture from the University of Alberta. Forty-three-year-old Shopland is married with two sons. The riding was represented by Liberal, Richard Hall, in the last legislature.

BRUCE

Cliff Patterson is the 28-year-old publisher and editor of the several weekly newspapers including the Tofield Mercury. A former newspaper reporter, Patterson established the weekly in the central Alberta community of Tofield six years ago. He is married with three children, two daughters and a son. Born in Alberta, he completed his education by studying business administration in Michigan. He has been active in the Conservative party for several years and has been president of Bruce Conservative Association since 1955. He is an executive member of the Tofield Chamber of Commerce. Social Crediter Earl Hardy, MLA, is seeking re-election.

CLOVER BAR

Andy Adamson, a municipal councillor in the MD of Strathcona for the past 13 years, is running on the Tory ticket in Clover Bar on the southeastern outskirts of Edmonton. Adamson was a Conservative candidate in the 1955 provincial election. Born in Scotland, he has been a farmer in the Colchester district for some 50 years except for a period of active service in the Canadian Army during the Great War. He is a past president of the Edmonton Milk and Cream Producers Association and is a director of the Alberta Dairymen's Association. Social Creder Floyd Baker has represented Clover Bar in the provincial house for the past 24 years.

Chris Nielson, the federal returning officer for the constituency of Jasper-Edson for the past three years, is running under the Tory banner in the foothill-riding of Edson. He is general merchant in the hamlet of Peers. He is married and has two sons and one daughter. Born in the district, Nielson is an Air Force veteran of World War II. Support the Positive Farm Policies of the Progressive Conservative Party

During the period from 1951 to 1956 the net income of the average Alberta farm family has dropped steadily from $3,602.00 to $3,037.00 per annum. Meanwhile annual income of the average Canadian family has increased by $750 per year.

The late Liberal administration insisted there was nothing they could do for our farmers. As a result farmers missed out in some part, on the post-war boom.

The Social Credit Government has done nothing for Alberta farmers. For positive policies and a realistic and helpful farm program, it is time for change to a Progressive Conservative Government in Alberta.

Progressive Conservatives in Alberta recognize that many farmers are caught in a cost-price squeeze. They recognize that a provincial government can do relatively little in an effort to raise sales prices. But there are positive policies that would have the effect of lowering farm costs.

A Progressive Conservative government in Alberta will implement positive policies to RAISE NET FARM INCOME through reducing farm costs. This the Social Credit government has conspicuously failed to do over the past twenty-four years.

Electors of Lac la Biche Constituency!

By voting for Henry Thompson you are voting for a man well known in the constituency, who will work ceaselessly and tirelessly for the constituency. Get yourself a FULL-TIME employee — not just a part-timer!

On June 18th vote for the man, who with his party, is interested in the welfare of the Alberta farmer. Vote for Henry Thompson.

Lac Ste. Anne area for twenty years. He has served the village of Mayerthorpe as a councillor for several years. Gould is a widower with two children. Liberal John Mills who captured the constituency from the Socreds in 1955 is seeking re-election.

REDWATER

Mrs. Martha Bielish, the PC candidate for Redwater, is the only woman on the Conservative slate for the June 18 election. She was born and raised in the Smoky Lake district and is a graduate of the Camrose Normal school. She taught school for two years before her marriage to Joe Belish in 1936. He is a well-known Warspite farmer and they have one 19-year-old son, Mervin. The Tory standard bearer is a past president of the Warspite Home and School Association, and is serving as a divisional trustee in the Smoky Lake School Division. Keenly interested in education, Mrs. Bielish prepared and presented her own personal brief to the Cameron Royal Commission on education last year. The constituency of Redwater is now represented by Liberal Alf Macyk who is up for re-election.

ST. ALBERT

Stan Walker, 44-year-old farmer, is the Tory nominee for the St. Albert riding which lies to the north of Edmonton. He has been a farmer in the Calhoo district since 1940 and reeve of the municipal district for the past two years. Walker who is married with two daughters and a son, is a graduate of the Vermilion School of Agriculture. He declares that S. C. is forcing many farmers into bankruptcy through out-rageously high rural service charges. Amid Manning's talk of plenty, three farmers a week are forced to quit and the Social Credit policy of forcing more debts upon the municipalities is threatening their survival. St. Albert was won by the Liberals in the 1955 election when the then attorney general, Lucien Maynard, was defeated by Art Soetaert. Soetaert is seeking re-election.

STONY PLAIN

Robert Clarkson, a former mayor of Drayton Valley, is the Conservative candidate in Stony Plain. Mr. Clarkson has been employed in the oilfields of Alberta since he returned from active service with the Canadian Army in 1945. He now operates his own business, Clarkson Oilfield Construction. He is married with three daughters. Stony Plain went Liberal in the last provincial election when Harold MacLaughlin was elected. The former Socred member—Mrs. C. R. Wood is also in the race.

Born in Winnipeg, Manitoba, Melnychuk was raised in Saskatoon where he attended the University of Saskatchewan. He received his BA here and a BEd from the University of Alberta. WAINWRIGHT

Don Mills, 29-year-old farmer from the Edgerton district, is the Conservative candidate in Wainwright. Mills, a political newcomer, is running against incumbent Social Crediter Henry Ruste. Ruste who is also a farmer, was first elected to the legislature in 1955.

WILLINGDON

Alex Hushlak, 49-year-old school teacher, is the Conservative in the running to represent Willingdon in the next provincial house. He is married with two daughters, and one son. He resides at Lamont. He believes that every Albertan has responsibilities — including those to the home, the school, the church and the government. Of these the government is the most important because without it the other three could hardly exist. Willingdon was represented by retiring 38-year-old Nick Dushenski in the last legislature. Hushlak's main opposition appears to be Socred N. A. Melnyk, an unsuccessful candidate in the 1955 elections.

EDMONTON CENTRE

$400 CAPITAL GRANT PER FARM FOR RURAL ELECTRIFICATION

PLEDGED BY CAM KIRBY

"CAM" KIRBY

"In Manitoba the entire cost of delivering electricity to farms is borne by the provincial Government. In Saskatchewan a large proportion is borne by the provincial Government. A Progressive Conservative Government in Alberta will bear 40 per cent of the capital cost of hooking up those farms that do not now have electric power. This will not be less than $400 or more than $600 per farm. Those that now have power will receive a capital rebate spread over four years, starting next year. It will be not less than $400 or more than $600 per farm."

Cam Kirby,
Leader,
Alberta Progressive
Conservative Party.

● FARMS NOW WITHOUT ELECTRIC POWER:
A Progressive Conservative Government will pay 40 per cent of the cost of delivering power to the farm. The capital grant will be not less than $400 or more than $600 per farm.

● FARMS THAT NOW HAVE ELECTRICITY:
40 per cent of the cost of originally delivering electricity to the farm (but not less than $400 or more than $600 per farm) will be returned to the farmer, the rebates being spread over four years.

"It is high time the people of Alberta participated in the wealth of Alberta."

HILDEN — Thieves stole $600 from the cash register of the egg grading station in this community 50 miles east of Edmonton, on the weekend.

Melnyk, SC, Lauds Five-Year Plan

HAIRY HILL— The Social Credit candidate for the Willingdon constituency addressed a well attended campaign meeting at the Shepenitz Hall recently, emphasizing the highlights of the five year plan. He pointed out that the 350 million dollar education program will ensure that no deserving student in Alberta, through lack of money, will be deprived of an opportunity to obtain education.

"There are too many of our young brilliant men and women across Canada who have been deprived of that privilege of the right to advance in education," he said. "The Social Credit government won't let that happen in Alberta".

Mr. Melnyk reviewed the amounts of municipal and school grants that the Lamont School Division and municipality, the Eagle Municipality and the Two Hills School Division received in the last few years, and he assured the meeting that more financial assistance will be coming to municipalities and school divisions.

He took the Progressive Conservatives to task for imposing new burdensome taxes. In Alberta, we abolish taxes not impose them. Alberta has abolished the Wild Lands Tax, the Increment Tax, the amusement tax, the social service tax and the tax on gasoline used in farm trucks.

Edmonton Race Horse Owners See Palomino

TWO HILLS — Mr. and Mrs. Lee Williams were down from Edmonton over the weekend to inspect the Palomino stallion "Quicksilver" for registration in the Canadian Palomino Horse Association.

It was a pleasure to meet this exceptionally interesting couple and be invited to visit them and go to the races and see their horses.

It has come to the ears of your local editor that a Fish and Duck Derby will be held here, contestants having to become members prior to July 31. All fish and game members are eligible, and the one at this time catching the largest fish or duck wins a prize. Len Manz is the official "weight checker".

On June 19 a meeting will be held at the Legion Hall with suitable films shown, their regular quarterly meeting.

ABUNDANT LIFE

by ORAL ROBERTS

BELIEVE AND YOU WILL SEE

"Show me a miracle. Then I will believe," many people say today.

This attitude is the opposite of the Bible teaching on the subject of faith. "Seeing" is not "believing," but **believing** is **seeing!**

The Scripture says, "If thou wouldest believe, thou shouldest see the glory of God" (John 11:40).

When Lazarus died, his sister, Martha, said: "Lord, if you had been here [physically, so I could have seen you], my brother would not have died." Seeing is believing! That is what she thought.

Jesus said, "Believe and you **WILL SEE** the wonder of what God can do."

"**Believe** and you will **see!**" Your eyes can see only what your heart believes. If your mind rejects the possibility of a miracle, then the eyes cannot see a miracle when it happens. God says, "Believing is seeing." True sight is of the soul.

A friend saw a little blind child receive her sight through prayer. He said, "All my life I have believed God can heal. Now I see it with my own eyes."

When Jesus said, "Blessed are the eyes that see these things," he was speaking of spiritual as well as physical sight.

The Bible teaches us that God is a Spirit. Therefore, while God cannot be seen physically with the eyes, he certainly can be "seen" mentally and felt with the heart by those who have faith and believe that he exists.

Some people do not have to see any visual sign to believe but, unfortunately, many people must see something "concrete" in order to believe.

As the friend mentioned above said, "All my life I have believed. . . . Now I see it with my own eyes." He had the ability to **exercise** his faith. From his words, he believed "all his life" although he hadn't actually "seen" any miracles happen. But once he **DID** see the miracle, he gave God the credit . . . because he **knew** that God has the power to heal.

Oh, that all of us today would turn our faith loose and say, not "show me a miracle and I will believe," but rather, " I believe, and I **expect** to see a miracle!"

Premier Defends Alta. Financing

The Alberta government's $300 million in reserves accumulated in previous years would never be touched if Liberal criticism of the current budget deficit were valid, Premier E. C. Manning said at Okotoks recently.

He said he was 'amazed" to read that Liberal leader Grant MacEwan had said a province as rich as Alberta should never have a deficit. The government budgeted for a $48 million deficit this year.

"If each year we spend no more than we take in, what are we ever going to do with the reserves we have built up in previous years?" Mr. Manning asked. "We saved that money for years when revenues might be short, or we wouldn't have to increase taxes. Why shouldn't we spend some of it then?"

The premier contended that was difficult from the federal deficit, since Alberta had money to pay off its debt ten times over, whereas the federal government was already heavily in debt.

Mr. Manning also said that other provinces don't put their highways and public buildings expenditures in with their regular operating budget, whereas Alberta does. If Alberta had followed their accounting procedure, there would have been a surplus, not a deficit.

Mr. Manning said that of Alberta's 4,100 miles of main highways, two-thirds are already hard-surfaced. The balance, plus a further 1,600 miles of road is gravelled. He said Alberta has more paved road than any other province but Ontario, which has four times as many people.

In the last year the government paid of $50 million of the provincial debt and has been criticized for it. Mr. Manning said that in previous years, as the outstanding provincial bonds could be purchased at an attractive enough price on the market, they were bought with surplus cash on hand. Fifty million of them were so acquired, and were kept on the books. But they have now been cancelled out.

The $248 million in municipal debt is 60 per cent that of Calgary and Edmonton, the premier said, and all but $75 million of the total has been loaned by the provincial government at low interest.

Neighbors Prove Friends In Need

Ellscott may be a small place but in it, and the surrounding district, live the grandest persons one could wish to meet. California may have its oranges and sunshine, Bermuda palms and beaches, Vancouver its roses, but Ellscott has dependable friends.

Joe and Nellie Lovely's farms were not large enough to accommodate all the friends who wanted to help them. On May 21, a day long to be remembered by all, 15 men, tractors and machinery drove in to seed the crop.

The ladies were there to help supply and prepare food for the men, and by the afternoon all was done.

The United Grain Growers agent at Ellscott, Pete Pelsma, and his wife Phyllis, were there to help organize and do all they could to make it a success.

Those who helped out were: Ken Sacre, Mike Klem, Leonard Knoblock, Joe Cutrel, Harry Mannen, Ginty Tanski, Bert Weigl, Reinold Siefried, Frank Weigl, Harry Keep, Jergon Malmedal, Claude Hutton, Fred Shemata, Carl Neil, John Zallas and George Wellwood.

George Saxton has again been a patient in the Athabasca Hospital.

A service was held in the Lutheran Church in Ellscott on Sunday, May 31.

Charles Sacre of Kamloops, B.C. has been a recent guest at the home of Mr. and Mrs. Bert Sacre.

W. M. V. ASH
. . . can be done

Says Highway Losses Can Be Reduced

Despite the fact that the automotive population of North America is multiplying faster than the human population, we do not have to accept as inevitable the traffic deaths and injuries we are presently suffering.

This was the opinion expressed last week by W. M. V. Ash, a former chairman of the Canadian Highway Safety Conference and president of Shell Oil Company of Canada, in an address to the Alberta Safety Conference.

Using Alberta as an example, Mr. Ash said that the human population of that province had increased by some 50 per cent from 1942 to 1957. Over the same period registration of all motor vehicles had increased by more than 200 per cent.

Mr. Ash was convinced that it was possible to cut the appalling loss of life and money caused through traffic accidents even though the car population is rising steadily.

"Others have done it and we can do it in Canada," he said. "In the United States, although motor vehicle traffic accidents do rank among the leading causes of death nevertheless significant advances are being made in traffic safety. The all-time high of highway deaths, in 1941, has not been exceeded since, in spite of a doubling of the miles driven that year'."

According to Mr. Ash, this has been accomplished through leadership from President Eisenhower downwards. He made it clear, however, that DIRECT action at the federal level is not the answer. On the contrary, he felt that highway safety is fundamentally the responsibility of the province or state. But at the federal level action is feasible through leadership and inspiration and through cooperation in research on such matters as traffic, police and court problems.

Last Saturday a truck overturned on the Bondiss road near the new school. Three persons were taken to hospital but were not seriously hurt. Cause of the accident was a new layer of loose gravel.

A truck loaded with grain, driven by Sigurd Beaverford, was in collosion with a car as Mr. Beaverford turned off the highway onto a sideroad. The truck was rolled over and the grain lost. The car was badly damaged but the drivers escaped unhurt.
